Art Unit: 3662

1. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of independent claims 1, 6, 14, 19, and 20, the use of "the phase shifted signal" lacks antecedent basis and is indefinite and unclear in context. In each use of "the phase shifted signal" in these claims the previous step is a step of "cycling" the phase shifters; however, the mere cycling of the phase shifters will not necessarily make "phase shifted signals," and there is no earlier mention of "phase shifted signals" in any one of these claims until the occurrence of "the phase shifted signal." If each of the "cycling" method steps is rewritten to recite clearly that "phase shifted signals" are produced, then this rejection will be overcome.

Dependent claims 2-5, 7-13, 15-18, and 21-22 are unclear in that they depend from unclear independent base claims 1, 6, 14, and 20.

2. Claims 1, 6, 14, 19, and 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. Claims 2-5, 7-13, 15-18, and 21-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
